EXPERIENCE

CMS Migration Contractor

Dec. 2024 – Present

The American Thoracic Society

Manage site migration to Craft CMS and assist with design refresh; contribute to SCSS, Twig, and JS LAMP repo.

- Expand ATS's in-house SCSS library and utilize it to ensure migrated pages meet new design requirements.
- Execute custom styling for new theme for all ATS OpenWater content, ensuring consistent UI for end-users.
- Collaborate with a cross-functional team for site migration, migrating 150+ pages and their assets; lead effort to identify and resolve obstacles, enabling team to define roadmap and bring project up to speed.

Web Developer

Mar. 2024 – Present

Freelance

Custom, to-spec full-stack solutions using responsive design for creating new sites or revitalizing existing ones.

- Built complete site for [Fiorelli Guitars](#) with TypeScript, Next.js, PostgreSQL, Prisma, Tailwind, Auth.js, and Vercel, implementing both a secured admin dashboard and public site with product gallery and contact form.
- For Fiorelli's admin dashboard, implemented a CMS using Prisma and PostgreSQL, allowing owner to maintain both general site content and products for public gallery; integrated OAuth with Auth.js to secure admin portal.
- Led the site refresh for [The Power of Z](#); redesigned homepage and built new content pages per marketing needs.

Software Engineer

Sept. 2023 – Mar. 2024

Engage Partners

Designed, developed, and deployed features and custom versions for a Chrome extension ([Click2.ai](#)) that generates social media content using OpenAI's API with TypeScript, Node.js, React, Styled Components, and AWS.

- Developed new sign-up UI and per-user configuration as part of reimplementing of core product; worked closely with UX designer to ensure UI in line with new direction and customer feedback.
- Built reusable TypeScript React components for dynamic features, speeding up future site integrations by ~50%.
- Architected and implemented a serverless backend with AWS; used Cognito and Amplify for identity management and Lambda functions to allow for secure integration of key 3rd party services.
- Migrated OpenAI calls to GPT-3.5 Turbo, increasing customer satisfaction with generated content by ~40%.
- Organized code reviews and pair programming to nurture a cohesive team dynamic and a culture of code quality.

eCommerce and Web Services Manager

Nov. 2020 – Jan. 2023

Robin Baron Design

Led operations for a Shopify eCommerce site; managed all web content and supervised 8–10 freelancers.

- Executed a homepage refresh, a rework of site navigation, and CSS features for the branded blog.
- Implemented site updates using Shopify's built-in features and additional custom HTML, CSS, and JavaScript.

Professional Musician

Nov. 2015 – Present

Freelance

Guitarist, producer, songwriter, and arranger for bands including [Stolen Jars](#), Pow Pow Family Band, and Goblynne.
